Objective

To leverage my skills as a Web Developer to contribute innovative solutions and exceptional user experiences in a collaborative team environment. Seeking a role where I can apply my proficiency in HTML, CSS, JavaScript, REACTjs etc. to enhance website functionality and design, while staying abreast of emerging technologies and design trends. Committed to creating visually appealing and responsive web applications that elevate the overall user satisfaction and contribute to the success of the team and organization.

Education

- **HIET college Ghaziabad** 2021
B.Tech
- **C.R.T Inter college (Science)** 2017
12th

Projects

- **E-commerce Dashboard Website**
Developed an E-commerce Dashboard Website using the MERN stack (MongoDB, Express.js, React.js, Node.js), ensuring seamless integration, real-time updates, and a user-friendly interface for efficient management of online store operations.
- **Amazon clone**
Explore the world of e-commerce with our Amazon Clone project, Dive into the code to understand the intricacies of HTML for structuring content and CSS for styling elements.
- **To-do list**
Crafted using HTML, CSS, and JavaScript, this dynamic to-do list project seamlessly combines sleek design with interactive functionality, providing a user-friendly platform for efficient task management.
- **Quiz app website**
Discover a fun quiz app website made using HTML, CSS, and JavaScript. Test your knowledge with interactive quizzes in a user-friendly design for an enjoyable learning experience.
- **Portfolio website**
Dive into my portfolio website to see what I've done, where I've learned, what I've experienced, and the skills I bring. A simple way to get to know me and my journey.
- **PW skills clone**
Explore and display our skills effortlessly with our PW Skills Clone project. Created using HTML and Tailwind CSS, it boasts a polished, user-friendly design for a seamless and responsive user experience.

Skills

- **HTML** : Skilled in HTML for creating structured and responsive web pages.
